

Green is good!

Check it out — *you* decide...

WHAT?	WHY?	David Weekley Green Home	10 Year Old Home	Competitor Builders
14 SEER Rating HVAC System	Higher number = More efficient This means less energy dollars out of your pocket.	14	10	
Double Pane Windows and Low E Glass	Windows are a <i>huge</i> energy drain. Double Pane Low E windows deflect much more of the Florida sun, resist sweating and humidity, and don't radiate heat.	YES!	NO	
R-Value Ceiling Insulation	Higher number = Less outside heat comes into your home Less outside heat means less use of your air conditioning - saving you money.	38	30	
MERV Rated Air Conditioning Filter	Higher number = Better filtration A higher number indicates a more efficient filtering of the air in your home.	8	3	
Mold Resistant Shower and Tub Walls	Cementitious Board and anti-fracture coatings. (No drywall or greenboard allowed in wet areas)	YES!	NO	
Jump Ducts	Better air quality. Air can become stale. In tighter environments with reduced drafts, jump ducts help you live better in your home.	YES!	NO	
Paper Free Fiberglass Insulation	We only use paper-free fiberglass insulation in our framed exterior walls.	YES!	MAYBE	
Quality Control/ Inspections	No one is perfect and mistakes can be made. Third party verification of requirements on all homes.	YES!	MAYBE	
Enhanced Durability	Framings, doors and windows designed for high wind areas (basic wind speeds up to 110 mph). Meets or exceeds Florida 2007 Building Code.	YES!	NO	
Carbon Monoxide Detectors	Alerts you to the possibility of harmful gas inside your home.	YES!	MAYBE	Std.

In the 21st century if it's not green, it's just not a good investment.
