

FACTS & FEATURES

PEACE OF MIND

DAVID WEEKLEY'S GREEN HOME PROGRAM

What exactly is a David Weekley Green Home? It's a home that is friendlier to you, to your environment and to your pocketbook. Reduced energy consumption actually makes a David Weekley Green Home less expensive to own. In fact our homes can save heating and energy usage over a similar home built to 2004 building code standards. It's what we call a "win-win-win." Invest your housing dollars more wisely. Help the environment. Live more comfortably. All of which can help make your David Weekley Green Home easier to resell. Because from now on, any home that isn't green may be obsolete.

- **Environments for Living Program-GoldLevel**
- High performance **14.5 SEER** air conditioning system helps cool your home with less electricity
- Environmentally-friendly, refrigerant in our air conditioning systems help protect the Earth's ozone
- 95% Efficient gas furnace to help heat your home with less energy
