### DAVID WEEKLEY'S ENERGYSAVER HOME PROGRAM

What exactly is a David Weekley EnergySaver home? It's a home that is friendlier to you, to your environment and to your pocketbook. Reduced energy consumption actually makes a David Weekley EnergySaver Home less expensive to own. In fact, our homes can save heating and energy usage over a similar home built to 2006 building code standards. It's what we call a "win-win-win." Invest your housing dollars more wisely. Help the environment. Live more comfortably. All of which can help make your David Weekley EnergySaver Home easier to resell because from now on, any home that isn't green may be obsolete.

- Environments for Living Program - Gold Level
- High performance 14 SEER air conditioning system helps cool your home with less electricity
- Environmentally-friendly refrigerant in our air conditioning systems help protect the Earth's ozone
- Jump ducts and air pressure balancing to even out temperatures and allow your air conditioning system to be more efficient
- Third Party performance verification to ensure minimal home leakage exceeding Department of Energy standards
- All duct work sealed with a hard cast anti-microbial mastic to reduce leaks
- Cooking surfaces vented directly outside
- Fresh Air intake system to bring in filtered, outside air for a healthier home - this replaces all the air in your home once every 24 hours
- Double-paned DP 50 industry rated, Low E2 glass, vinyl windows help insulate your home and reduce maintenance costs
- Improved Thermal Envelope System (R-19 wall system and R-38 blown-in insulation in the attic)
- Caulk and Seal program to minimize air leakage and further maximize energy efficiency
- PEX corrosion resistant plumbing system
- Water barrier system for tubs and showers
- Carbon monoxide and smoke detectors with battery back-up
- Combustion appliances sealed or power vented to avoid build up of carbon monoxide
- Low Volatile Organic Compound Paints are utilized to help maintain better indoor air quality
- Environmentally-friendly termite pretreatment on lumber to reduce the risk of damage to your home
- 50 gallon hot water heater
- Advanced Framing - a collection of homebuilding techniques using 2x6 exterior wall framing designed to reduce both construction waste and lumber required for your home; thereby creating a more energy efficient framing layout
- Radiant Barrier Decking reflects heat keeping the attic cooler, lowering energy costs and making the home more comfortable
- 100% CFL light bulbs
