

FACTS & FEATURES

PEACE OF MIND

DAVID WEEKLEY'S ENERGYSAVER HOME PROGRAM

What exactly is a David Weekley EnergySaver home? It's a home that is friendlier to you, to your environment and to your pocketbook. Reduced energy consumption actually makes a David Weekley EnergySaver Home less expensive to own. In fact, our homes can save heating and energy usage over a similar home built to 2006 building code standards. It's what we call a "win-win-win." Invest your housing dollars more wisely. Help the environment. Live more comfortably. All of which can help make your David Weekley EnergySaver Home easier to resell. Because from now on, any home that isn't green may be obsolete.

- Environments for Living Program - Gold Level
- 2x6 exterior wall construction - 50% more insulation
- High performance **14.5 SEER** air conditioning system helps cool your home with less electricity
- Environmentally-friendly refrigerant in our air conditioning systems help protect the Earth's ozone
- 95% efficient gas furnace to help heat your home with less energy
- Jump ducts and air pressure balancing to even out temperatures and allow your air conditioning system to be more efficient
- Third Party performance verification to ensure minimal home leakage exceeding Department of Energy standards
- All duct work sealed with a hard cast mastic to reduce leaks
- Cooking surfaces vented directly outside
- **Fresh Air** intake system to bring in filtered, outside air for a healthier home
- Low E2 glass vinyl windows help insulate your home and reduce maintenance costs
- Improved Thermal Envelope System (R-19 wall system and R-30 blown-in insulation in the attic)
- Caulk and Seal program to minimize air leakage and further maximize energy efficiency
- Rehau **PEX** corrosion resistant plumbing system
