## DAVID WEEKLEY'S ENERGYSAVER HOME PROGRAM

What exactly is a David Weekley EnergySaver home? It's a home that is friendlier to you, to your environment and to your pocketbook. Reduced energy consumption actually makes a David Weekley EnergySaver Home less expensive to own. In fact, our homes can save heating and energy usage over a similar home built to 2006 building code standards. It's what we call a "win-win-win." Invest your housing dollars more wisely. Help the environment. Live more comfortably. All of which can help make your David Weekley EnergySaver Home easier to resell - because from now on, any home that isn't green may be obsolete.

- **Environments for Living Program** - Diamond Level
- High performance **14 SEER** air conditioning system helps cool your home with less electricity
- Environmentally-friendly refrigerant in our air conditioning systems help protect the Earth's ozone
- 92% efficient gas furnace to help heat your home with less energy
- Duct blaster testing and air pressure balancing to even out temperatures and allow your air conditioning system to be more efficient
- Third Party performance verification to ensure minimal home leakage exceeding Department of Energy standards
- All duct work sealed with a hard cast mastic to reduce leaks
- Cooking surfaces vented directly outside
- **Fresh Air** intake system to bring in filtered, outside air for a healthier home
- Low E2 glass vinyl windows help insulate your home and reduce maintenance costs
- Improved Thermal Envelope System (R-19 wall system and R-30 blown-in insulation in the attic)
- Caulk and Seal program to minimize air leakage and further maximize energy efficiency
- **PEX** corrosion resistant plumbing system
- Water barrier system for tubs and showers
- Carbon monoxide and smoke detectors with battery back-up
- Combustion appliances sealed or power vented to avoid build up of carbon monoxide
- Low Volatile Organic Compound Paints are utilized to help maintain better indoor air quality
- Environmentally-friendly termite baiting systems reduce the risk of damage to your home
- 50 gallon gas water heater
- **Advanced Framing** - a collection of homebuilding techniques using 2x6 exterior wall framing designed to reduce both construction waste and lumber required for your home; thereby creating a more energy efficient framing layout and deeper exterior wall space allowing for up to 50% thicker insulation
