DAVID WEEKLEY'S *EnergySaver* PROGRAM

- Carrier high efficiency, 14 SEER rated variable 2 speed heat pump/air conditioning
- Energy efficient 50 gallon *Bradford White* natural gas water heater (per plan)
- AC duct systems tested with "duct blaster" to minimal duct leakage and improve energy efficiency
- Ductwork and plenums sealed with iron silicate/zinc mastic to produce a largely improved duct system with a very low leakage rate

DAVID WEEKLEY'S *EnergySaver* PROGRAM (continued)

- High efficiency vinyl, "Low E", double pane windows to reduce air infiltration and lower utility costs
- Enhanced durability - Framing, doors and windows designed for high wind areas (basic wind speeds up to 130mph).
- Meets or exceeds Florida 2007 Building Code which may result in lower insurance rates.
- Water-resistant, paperless tile backer board and anti-fracture membranes to eliminate transmission of moisture through seams or fasteners into the wall cavity
- Stringent plumbing supply line and drain line tests to ensure the plumbing functions properly - *Flowguard Gold*
- *Sill Seal* to reduce air and moisture penetration
- Bigger is no longer better in air-conditioning design. A/C systems are precisely engineered to avoid short-cycling and Control humidity
- *Carrier* Air Conditioner designed with fresh air intake to help maintain indoor air quality
- Carbon monoxide detectors to monitor air quality
- Air conditioning ducts are tested to exceed Department of Energy standards
- Jump ducts in secondary bedrooms to balance hot and cold temperatures
- Walls are tested for air leakage to exceed Department of Energy standards
- *PPG low VOC* (Volatile Organic Compound) paint
- Exterior paint with mildewcides designed specifically for this climate.
- Specially designed rot resistant door jambs
- Water resistant barrier at window sills
- Green guard certified *Owens Corning* fiberglass insulation
- R-19 insulated exterior wall systems
- R-19 paperless fiberglass batt insulation on sloped ceilings
- R-38 blown/batt fiberglass insulation
- Pleated media air filters to catch pollen and mold spores (MERV 8)
- Radiant barrier roof decking to reduce heat load on your AC system
- 2x6 exterior walls
- EFL Gold
