SOME FACTS & FEATURES THAT WILL ADD TO YOUR

P E A C E O F M I N D

If you like what you see in a David Weekley home, you may not be considering what is behind the drywall. There is a lot that goes on behind the walls that really sets us apart from the rest.

For example, the energy efficient construction that we believe so strongly in that we will actually guarantee it! The batt/blown insulation in the attic, the air infiltration controls and the insulation of our concrete block walls are all items behind the walls that really set us apart from the others. We use double pane low E vinyl windows, radiant barrier in the attic, and mastic around our HVAC components which prevents unnecessary loss of the air that you are paying to cool in the summer and heat in the colder months.

Of course, there are the things that you do see. The architectural details in our elevations, top quality selections at our Design Center, brand name appliances and rich finishes; from hard wood flooring to gorgeous granite countertops. There is no doubt that you are discovering, for Peace of Mind, you just can't beat a David Weekley Home.
