

# WHAT'S IN A DAVID WEEKLEY ENERGYSAVER™ HOME?

| WE CHOOSE...  | SO YOU CAN ENJOY...  |
|---|--|
| 2x6 Exterior Walls  | Durability and insulation  |
| R-21 Un-faced Batt Insulated Walls  | Moisture resistance and maintaining placement  |
| R-38 Blown-in Fiberglass Insulation in Ceiling                                | Coverage that is better than batt insulation   |
| R-13 Fiberglass Batt at Finished Basement Walls                               | Superior efficiency  |
| R-38 Insulation in the Attic  | Optimal coverage and superior efficiency at maintaining temperatures                                 |
| Full OSB Wrapped Exteriors with Tyvek House Wrap                              | Added durability and moisture resistance with a breathable layer of protection                       |
| Fibrous Cement Siding or Acrylic Through-body Stucco                          | Maximum longevity  |
| Engineered I-joist Floor System   | Sound absorption and structural integrity  |
| Whole Home Balanced Ventilation System  | Reduction in heating/cooling needs and cost  |
| Panasonic WhisperGreen Select™ Exhaust System                                 | Improved air quality and energy efficiency   |
| Fiber Cement Board at Shower/Tub Locations                                    | Superior moisture resistance   |
| Uponor PEX Plumbing System  | Corrosion-free pipes that prevent build up   |
| Liquid Foam Air-infiltration Package  | Insulation that inhibits penetration to the exterior   |
| Sealed Ductwork and Plenum  | Maximum energy efficiency  |
| Jump Ducts Throughout   | Balanced indoor air flow   |
| Window Sill Flashing  | Additional moisture resistance and protection  |
| Sill Seals at Base Plates   | Protection from energy loss  |
| ENERGY STAR® 3.0 Qualified Double-pane Low-E Vinyl Thermal Windows Throughout | Minimization of ultraviolet light and heat reflection so it is cooler in summer and warmer in winter |
| Sealed Combustion Gas Furnace   | Prevention of backdraft and improved air quality and efficiency                                      |
| Sealed Combustion-power Vented Water Heater                                   | Protection of air quality and lower energy costs   |
| Honeywell Programmable Thermostat   | Optimization and protection of HVAC energy usage   |
| Low VOC Sherwin-Williams Paint  | Maintains air quality by excluding particulates that irritate the nose, throat and eyes              |
| Independent, Third-party Inspections and Verification                         | Confirm building excellence  |
