DAVID WEEKLEY'S ENERGYSAVER HOME PROGRAM

What exactly is a David Weekley EnergySaver home? It's a home that is friendlier to you, to your environment and to your pocketbook. Reduced energy consumption actually makes a David Weekley EnergySaver Home less expensive to own. In fact, our homes can save heating and energy usage over a similar home built to 2006 building code standards. It's what we call a "win-win-win." Invest your housing dollars more wisely. Help the environment. Live more comfortably. All of which can help make your David Weekley EnergySaver Home easier to resell. Because from now on, any home that isn't green may be obsolete.

- Environments for Living Program - Platinum Level
- Carrier high performance 14 SEER air conditioning system helps cool your home with less electricity
- Environmentally-friendly refrigerant in our air conditioning systems help protect the Earth's ozone
- Carrier 92% AFUE high efficiency natural gas heat with 14 SEER condenser for cooling with digital thermostat
