

David Weekley Homes

FACTS AND FEATURES Point Hope

BENEFITS OF OUR ENERGYSAVER HOMES

We know that a home purchase is a big investment. That's why our David Weekley EnergySaver™ Homes are built to provide peace of mind by incorporating the latest energy-efficient building techniques and materials into the construction of our homes. In addition to shrinking our carbon footprint, these practices save on energy usage, too. And, when you're spending less on heating and cooling costs, you'll have more discretionary money available to buy the home you really want. That's a win-win!

- *Environments for Living Program*® - Platinum Level
- Efficient tankless gas water heater
- High performance HVAC system
- Environmentally-friendly refrigerant in our air conditioning systems help protect the Earth's ozone
- Dual Zone HVAC 7-day programmable Wi-Fi thermostats
- Jump ducts and air pressure balancing to even out temperatures and allow your air conditioning system to be more efficient
- Third Party performance verification to ensure minimal home leakage exceeds Department of Energy standards
- All duct work sealed with a hard cast mastic to reduce leaks
- Fresh air intake system to bring in filtered, outside air for a healthier home - this replaces all air in your home throughout the day
- Cooking surfaces vented directly outside
- Double-paned DP-50 industry rated, Low-E glass vinyl windows help insulate your home and reduce maintenance costs
- Insulated with R-19 wall system, R-38 blown-in insulation in the Attic, and R-30 vapor barrier batts in vaulted ceilings
- Caulk and Seal program to minimize air leakage and further maximize energy efficiency
- PEX corrosion resistant plumbing system
- Water barrier system for tubs and showers
- Carbon monoxide and smoke detectors with battery back-up
- Low volatile organic compound paints by Sherwin Williams help maintain better indoor air quality
- Taexx pest control tubing system installed in exterior walls
- Sentricon termite system with renewable bond
- Advanced Framing - a collection of homebuilding techniques using 2x6 exterior wall framing, designed to reduce construction waste, allow for more insulation, and provide a stronger and more energy efficient home
