FACTS & FEATURES

PEACE OF MIND

EnergySaver PROGRAM

- Environments for Living Certified Platinum Energy-Efficient Homes. This nationally recognized program includes 3rd party inspections, testing and certification on the home's energy efficiency qualifications specified to meet EFL standards
- Ask about EFL's Guaranteed Energy Usage and how it will reduce your monthly energy bills
- High efficiency Carrier 14.3 SEER2 cooling system and heat pump with fresh air intake
- Systems are individually designed by a 3rd party Engineer
- The Mechanical Engineer performs the following inspections to ensure optimal operation of the HVAC system:
 - Ductwork Inspection - Ensures HVAC ducts are installed as designed for maximum performance
 - Insulation Inspection - Insulation installed per the highest standards
 - Duct Blaster Test - Validates minimum duct leakage and improves energy efficiency
 - Blower Door Test - Pressurizes entire home to test how tight the home is sealed
 - Air Flow Test - Measures vent air flow in each room to ensure comfort and consistency for the whole home
 - Total system Inspection - A final, complete inspection of the whole system to deliver the best HVAC operation
- Programmable thermostats
- Energy-efficient windows with double pane, Low E glass and vinyl frames
- Poly sealant at base plates, doors and windows to prevent air infiltration
- Grade 1 insulation to create a more efficient and comfortable home
- R-19 in exterior 2x6 wall system
- Open cell spray foam insulation applied to the underside of the roof deck in the attic above the conditioned space
- Kitchen vent hood vented to exterior of home
- Exterior mounted Rheem tankless natural gas water heater
- Natural gas community
